

Olivier Dreyer

Senior Strategy, Operations & Transformation Leader

Senior Strategy, Operations & Transformation leader with nearly 15 years across FinTech & Payments, SaaS and HealthTech. Combines strategic vision with operational depth and disciplined execution to translate ambition into scalable delivery and measurable commercial outcomes. Experience spans enterprise strategy, global operations, operating-model transformation, commercialisation, post-M&A; value creation, P&L; ownership and practical AI-enabled transformation.

UK-based; open to London, UK-remote, Europe and UAE opportunities. British and French citizen with UK and EU work authorisation.

CAREER HIGHLIGHTS

- \$40M operating P&L; with global operational leadership
- Led post-acquisition value-creation work that reached a three-year \$3.5M ARR target in approximately ten months; the initiative later scaled to a ~\$16M annual sales run rate
- Built an approximately \$11M ARR pipeline for a cross-border money-movement proposition
- 96% client satisfaction; critical-incident resolution reduced from 2.14 to 0.22 days
- Created seven monetisable services at TrakCel and developed an international operations model with approximately 50% cost reduction versus prior outsourcing

CORE CAPABILITIES

Strategy & Operations | Transformation & Operating Models | Business Operations | P&L; & Governance | Commercialisation & Growth | Post-M&A; Value Creation | Global Operations & Customer Delivery | SaaS & Recurring-Revenue Services | FinTech & Payments | AI-enabled Transformation & Decision Governance

EXPERIENCE

Independent | Strategy, Operations & Transformation Projects

2026 - Present | UK

- Applying strategy, operations and transformation disciplines within a live UK property business, including the design and implementation of Compass, an internal AI-enabled operations platform for governed decision support and workflows.
- Using this work to test practical AI-enabled operating approaches while deterministic rules, approval rights and authoritative records remain under human control.

TrakCel | Vice President, Client Services (Strategy, Innovation & Growth)

Sep 2024 - Jan 2026 | UK / Global

- Senior leadership role reporting to the COO, with direct CEO partnership on strategy, innovation and growth across Client Services, Support, Customer Success, Education, Managed Application Services and Change Management.
- Created seven monetisable services; redesigned Support pricing from a \$0.47M baseline toward a \$2.61M three-year target, with services projected to grow from 4.7% to 26% of revenue mix.
- Established a Philippines Operations Centre of Excellence, replacing approximately £143k annual outsourcing with three hires at roughly half the cost; model was adopted by other functions.
- Delivered more than \$250k in Transition Service Agreement revenue and strengthened go-live, governance and customer-transition disciplines.

Independent | Strategy & Innovation Advisory - Payments & Capital Markets

Nov 2022 - Aug 2024 | UK

- Advised investment-management, hedge-fund and advisory organisations, including clients with more than \$1B AUM, on growth, operating models and market developments.
- Focused on Payments, Capital Markets and Banking trends, commercial strategy and practical execution frameworks.

FIS / Worldpay | Director of Strategy

Sep 2019 - Oct 2022 | London / Global

- Transitioned from global Operations leadership into Strategy, then led post-acquisition value-creation work following the Worldpay transaction; a three-year \$3.5M ARR target was reached in approximately ten months and the initiative later scaled to a ~\$16M annual sales run rate.
- Developed a real-time cross-border money-movement proposition with an approximately \$11M ARR pipeline, spanning proposition design, GTM, pricing and delivery planning.
- Supported corporate strategy, geographic expansion, portfolio evaluation, board materials and SaaS/cloud modernisation across a global financial-technology environment.

FIS | Vice President of Operations

Mar 2018 - Aug 2019 | London / Global

- Owned a \$40M operating P&L; across Client Services & Support, Customer Success, SaaS Operations, Managed Services and Education Services, leading a global team of 30+ and approximately 600 customers.
- Built five delivery centres and increased workforce by approximately 350% while introducing KPI-led operating management and 24/7 support coverage.
- Achieved 96% client satisfaction, 40% same-day resolution and reduced critical-incident resolution time from 2.14 to 0.22 days.

FIS | Progressive Operations Leadership Roles

Mar 2012 - Feb 2018 | Europe / Global

- Progressed through Team Leader, Manager and Global Director roles before promotion to Vice President, with five promotions in six years.
- Built and scaled international customer and operational functions from an initial team of approximately eight into a multi-country operating model.
